GUESS is committed to enhance the sustainability of both its global operations and local communities, and connect customers with more sustainable fashion choices. Building on that commitment, Guess has developed our List of Restricted Substances and Materials (LRSM) as a requirement to our suppliers and as assurance to our customers.

This LRSM identifies the chemicals we will limit or prohibit in our products or in the production process due to their potential impact on consumers, workers and the environment. It provides up-to-date information to our business partners, including direct sources and licensees, on product compliance with international consumer products regulations, to the best of our knowledge.

We continue to monitor changes in legal requirements as well as industry best practices and update this list as necessary. Additionally, we will collaborate and communicate with industry partners to foster these goals.

## 1. SCOPE

All GUESS branded products must comply with the relevant requirements.

## 2. BANNED MATERIALS

Type of materials	Remarks
Real Fur	In any part of the goods
Angora Wool or Hair (from Angora Rabbit)	In any part of the goods
Mohair (Angora Goat Hair)	In any part of the goods
Exotic Leather (or other part from vulnerable, endangered, or wild-caught species)	In any part of the goods
Gold	Electroplating of the hardware trims for apparel

## 3. RESTRICTED MATERIALS

Type of materials	Remarks
<u>Leather</u> <ul style="list-style-type: none"> <li>- Leather coming from tanneries audited by Leather Working Group (LWG) are preferred.</li> </ul>	In any part of the goods  Fillings
<u>Feathers and Down:</u> <ul style="list-style-type: none"> <li>- Feather and down is considered as an animal by-product in accordance with the International regulation</li> <li>- No live plucking for duck and goose material</li> </ul>

## 4.2 CA PROP 65 REQUIREMENTS

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment.

GUESS requires all suppliers to conform to the latest version of the Proposition.

For detailed information& requirements, please visit <https://oehha.ca.gov/proposition-65/proposition-65-list>

## 6. JEWELRY

The limits refer to products for adults and have been selected in order to be according to the most authoritative compulsory regulations. Types of materials taken into consideration: metals, glassware and crystalware, plastic materials, wood and pottery; specific limits are not applicable to natural stones.

The below tables don't deal with textile and leather – which certainly can be involved in jewelry products – since the applicable limits for those materials have already been defined in the previous section of the same document.

### a. Metal parts

Substance	Test Method	Requirement	Law/Country	Notes
<i>Total Metals</i>				
Cadmium	UNI EN 16711-1:2015 + UNI ENISO 17294-2:2005	< 100 mg/kg	European Union REACH Regulation (EC) No. 1907/2006 Annex XVII	-
